Top-Level Security

Step into the future collaboration

Introducing the CT Series, designed to empower teams for effortless engagement, ideation, and seamless presentations. The CT Series is fully equipped to support productive hybrid meetings and blended learning, featuring an integrated AI camera, microphones, speakers, and wireless casting capabilities. With just a simple click, you can effortlessly connect your laptop and share your screen, and access the camera wirelessly through a dedicated app.

Built with security as a top priority, the CT Series omits an embedded Android system to ensure top-level organizational protection. It also provides users the flexibility to select their preferred operating system, whether it's Windows, Android, or Google-certified OPS, while delivering immersive experiences with crystal-clear visuals, vibrant colors, and responsive touch-and-write functionality. Elevate your meetings to a new level of impact and foster team synergy with the CT Series.

User-centered Display Design

More than a display, it's the centerpiece of your collaborative meeting system. The CT series boasts an intuitive button design for easy identification and usage. Its front I/O ports, buttons, writing tools, and sensors seamlessly blend practical functionality with aesthetics.

Top-Level Security

With a security-first approach, the CT series prioritizes the protection of your data. Unlike traditional systems, the CT series does not rely on an operating system, ensuring that all your sensitive information remains securely stored on your own device. Safe and clear as you go.
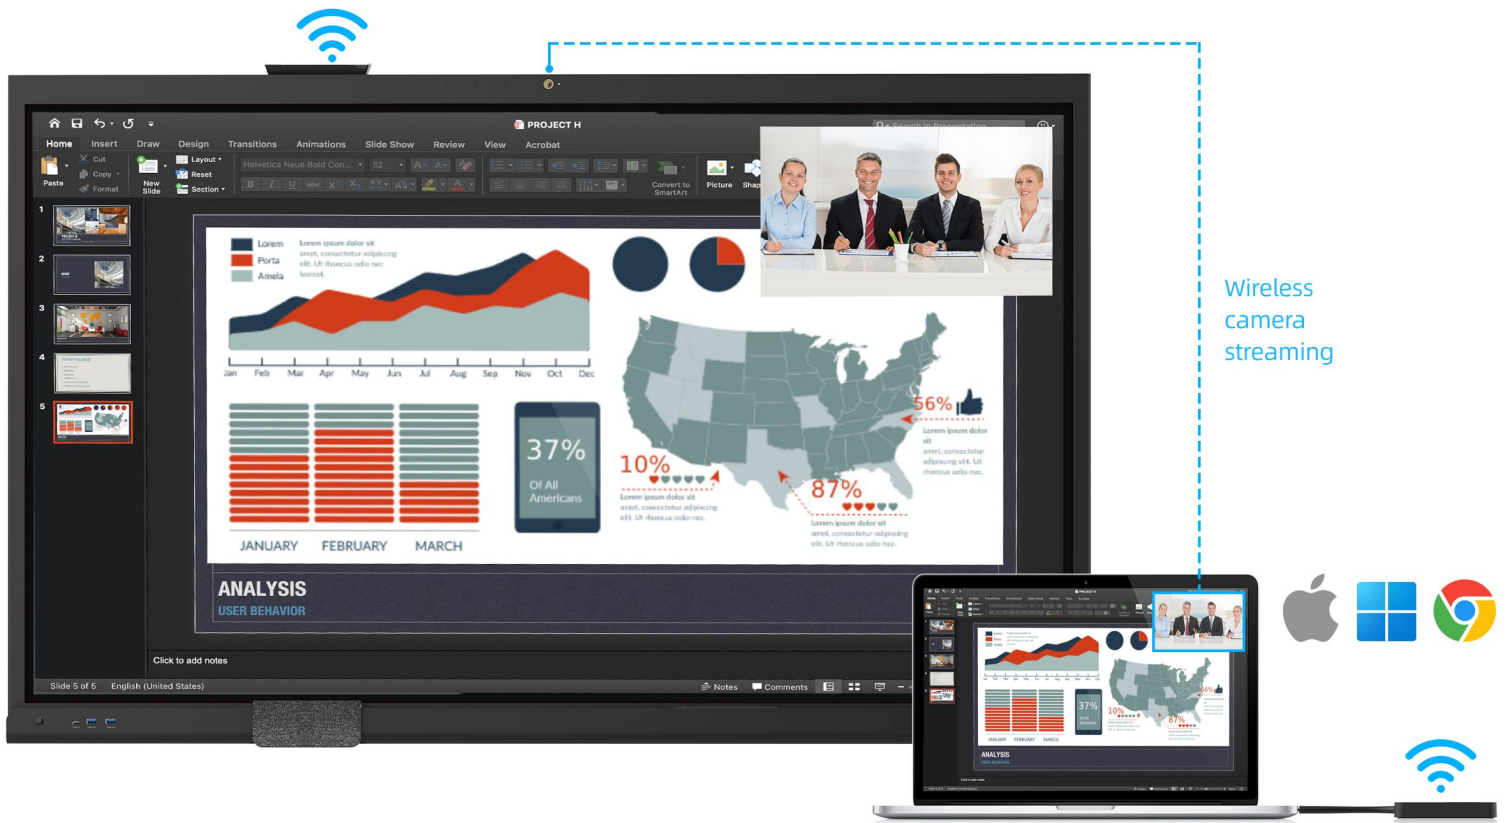

Collaborate and Create with Windows Ink

Annotate, mark up, and highlight content using your fingers, the included writing pen, and the eraser tool on the Windows whiteboard, Office365, or Windows Ink, enabling seamless collaboration.

OS Flexibility

The CT series is equipped with an OPS slot, providing users the flexibility to choose their preferred operating system, be it Windows, Android, or Google-certified OPS.

Wireless camera streaming

Wireless Conferencing with Camera Streaming

Bring your own meeting and enjoy clutter-free conferencing.
· Effortlessly screen sharing via USB pod, Airplay, Miracast, and Chromecast.
· Wirelessly access the built-in camera directly from your laptop with high clarity.
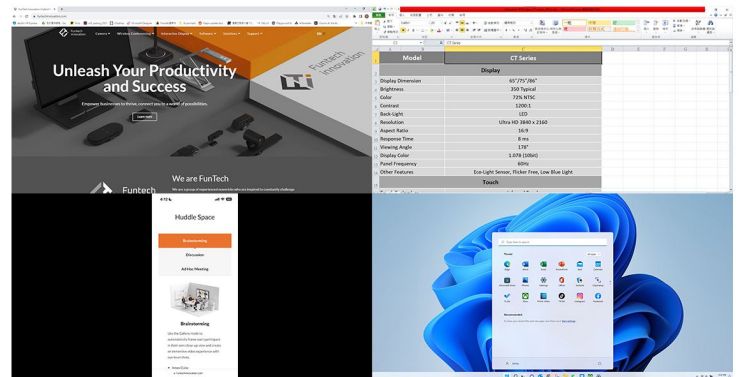

Plug & Play

Plug the USB Pod into your laptop's USB-C port for seamless screen sharing, eliminating cables and enabling wireless presentations with a single click.

Multi-Screen Sharing

Receive multiple screen sharing sources like USB Pod, Airplay, Miracast, and Chromecast, and display them simultaneously in split-screen mode, supporting up to 4 partitions.

Touchback Control

With touch back control, you can interact with and navigate screen sharing devices in real-time. Simply approach the interactive display in your meeting, and your presentation is at your fingertips.

Compatible with all UC Software

Whether with Zoom, Microsoft Teams, Google Meet, or any other UC software, the CT series guarantees seamless collaboration, communication, and productivity across your preferred applications.
