Unleash Mobility and Collaboration

Experience the ultimate mobility and flexibility with the Innex CM series 55" interactive display, designed to revolutionize your collaboration. With comprehensive BYOM support, effortlessly initiate video conferences and connect with teams in seconds. Enjoy seamless wireless access to essential features, including the camera, microphone, speaker, and touchback control. The active pen's pressure-sensitive offers a paper-like writing experience, enhancing creativity.

Easily relocate the display within various rooms, instantly converting any corner into a dynamic and collaborative meeting area. Boost productivity, encourage innovation, and unleash the full potential of your meetings with unparalleled flexibility and convenience.

P-CAP touch for clear image and precise touch

Sleek Design

Integrated AI Camera and Premium Sound Quality

- Wide-angle camera featuring AI video modes including smart gallery, speaker tracking and auto-framing.
- Premium built-in microphone array and powerful speaker for full-room coverage.

Complete Control in Your Hand

With a thoughtfully designed remote control, placing complete control in your hand. You can easily manage not only the panel settings but also access advanced camera AI modes, adjust camera viewing angles, and other settings to tailor your experience precisely to your preferences.

Anywhere, Anytime - Optimize Existing Spaces

Enhance your mobility with our lightweight and easy-to-move stand, allowing you to set up your workspace wherever you need it. Its compact design saves valuable space, making it perfect for any environment. By optimizing space usage, this solution not only enhances productivity but also improves ROI, ensuring you get the most out of your investment.

Intuitive Whiteboard

The CM series whiteboard software transforms collaboration with its interactive and intuitive digital workspace. Users can easily annotate and capture screenshots directly from their laptop during screen sharing, seamlessly integrating them into the whiteboard to enhance the flow of ideas and discussions.

Microsoft Pen Protocol

The MPP 2.0 stylus pen elevates productivity with enhanced precision and responsiveness for a smooth, natural writing experience. Its 4096 pressure sensitivity captures every detail, making it ideal for sketching, note-taking, and annotating. Plus, the convenient tail eraser allows users to effortlessly correct mistakes with a simple flip.

Empowering Teams with the Ultimate Wireless BYOD Solution

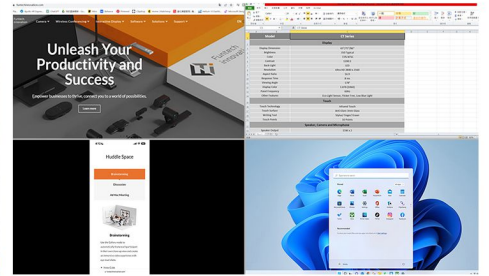

Experience seamless collaboration with Connect Pro dongles, AirPlay, Miracast, and Chromecast for effortless screen sharing from any device. With multi-screen sharing, multiple users can present simultaneously, enhancing teamwork and boosting productivity.

Plug and play Connect Pro Button

Airplay / Miracast / Chromecast

Multi-Screen Sharing

Wireless Conferencing with Camera Streaming

Wirelessly access the built-in camera and 8-microphone array from your laptop with high clarity using the Connect Pro Button or our software. Effortlessly integrate all your conference call software for enhanced collaboration, making presentations and video calls smoother than ever with seamless connectivity and

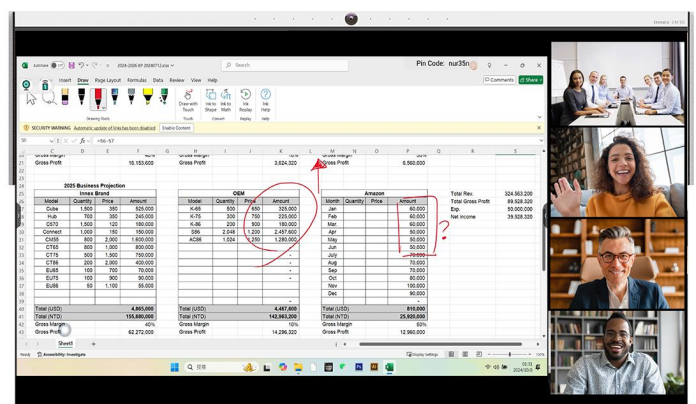

Security Meets Convenience

With the bundled Connect Pro dongles, you can wirelessly display content and data directly from your laptop in just seconds. This eliminates the need for last-minute file transfers and reduces the risk of cloud drive password leaks when typing on an on-screen keyboard. Plus, it helps prevent unauthorized breaches by ensuring you don't forget to log off before the next user accesses the system.

Touchback Control with Microsoft Pen Protocol Support

Screen sharing with the Connect Pro Button, backed by MPP protocol support and touchback control, guarantees compatibility with Microsoft Office Suites, Whiteboard, OneNote, Edge and more.
