*Use the remote control within 3m (9.84ft) to 6m (19.68ft) from the sensor on the product at an angle of 30° from the left and right.

Connect Pro Receiver

***Please install the Connect Pro Receiver before power on product.**

Insert the Connect Pro Receiver into the HDMI port on top of the CT display. This port is exclusively for the receiver. If needed, secure it with the included M3 screws.

Connect Pro Receiver does not support hot plugging. Therefore, you must insert or remove the receiver when the display is powered off. Otherwise, the panel display or the receiver may be damaged.

Display menu

Press the menu button on the display or remote control to open the display menu. Navigate using the arrow keys, and press OK to select and confirm your choice.

 **Source:** Select an icon to switch sources, and select the “default” icon to set a source as default.

 **Image:** Select an image mode or customize your own settings by adjusting image properties.

 **More:** Access extra display settings like language, aspect ratio, color range, and factory reset.

 Mute/Unmute  Volume  Brightness

Sources and connections

OPS

Remove the metal cover on the OPS slot. Then, insert the OPS into the OPS slot on the back of display.

HDMI 1 & HDMI 2

Connect your device by using a HDMI cable and USB B-A cable.

Front & Rear Type-c

Connect your device using a USB-C to USB-C cable to a full-featured USB-C port on your laptop.

Screen share

Switch the source to “Screen Share”, follow the instructions on the Connect Pro interface to start sharing your screen.

Connect Pro

With Connect Pro, the CT display supports screen sharing via Airplay, Miracast, Chromecast, and Innex Connect Pro Button. Access the built-in camera wirelessly from your laptop with the Innex Connect Pro Button.

Connect Pro Button

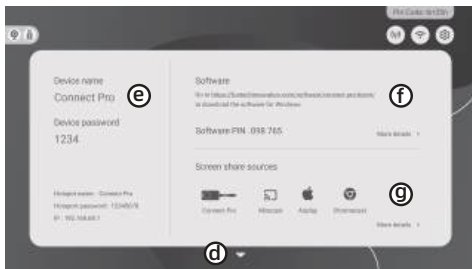

Airplay

Miracast

Chromecast

	Item	Description
a	BYOM icon	Displays when the BYOM function is ready. If the BYOM icon doesn't appear, connect to the internet to activate the product or ensure the camera is connected to the display.
	Device icon	Displays the number of devices ready for screen sharing. Tap to view details.
b	Pin code	Enter this Pin code in the Connect Pro software to connect to the display and start screen sharing.
c	Hotspot	Displays the hotspot status and provides a link to the hotspot page.
	Wi-Fi	Displays the Wi-Fi status and provides a link to the Wi-Fi page.
	Settings	Provides a link to the settings page.
d	Arrow	Tap to expand or collapse the information page.
e	Info	Displays basic device information, including the device name and password needed for screen sharing.
f	Software	Provides links to download the software for Windows and access the quick guide for using it.
g	Source info	Displays screen share source options. Tap "More details" for a quick guide on how to use them.

	Item	Description
h	BYOM	Displays information about the camera, microphone, and speaker.
i	Hotspot	Advanced hotspot settings, including name, password, AP band, etc.
j	Wi-Fi	Search for Wi-Fi networks to connect and view internet details.
k	Miracast	Enable/disable Miracast and adjust its resolution settings.
