

# California Proposition 65 Notice

**Fun Technology Innovation** is committed to providing safe and high-quality products.

Some Innex products may contain materials or components that can expose users to chemicals listed under California Proposition 65.

Proposition 65, officially known as the Safe Drinking Water and Toxic Enforcement Act of 1986, requires businesses to provide a clear and reasonable warning if their products may expose individuals to chemicals known to the State of California to cause cancer, birth defects, or other reproductive harm.

## What does this mean?

- A Proposition 65 warning **“does not necessarily mean that a product is unsafe”**.
- It indicates that the product may contain trace amounts of one or more listed chemicals, or that exposure cannot be fully excluded under certain use conditions.
- The purpose of this law is to ensure transparency and allow consumers to make informed decisions about potential exposure risks

## Fun Technology Innovation’s Commitment

- Fun Technology Innovation complies with all applicable global safety and regulatory standards.
- We continuously evaluate materials and components used in Innex products to ensure safety and regulatory compliance.
- Where required, appropriate warnings are provided in accordance with California regulations.
